Comfortable warmth and comfort at the touch of a button  
Innovative heating foils for ceiling, wall & floor

# E-ENERGY CARBON

Electric surface heating for ceiling, wall & floor

- ✓ Fast reaction time due to near-surface installation
- ✓ Low investment, installation and consumption costs
- ✓ Low installation depth – Retrofitting possible in inhabited condition
- ✓ Flexible installation for ceiling, wall and floor
- ✓ Subsequent installations e.g. spotlights in the heating surface are possible

## Applications

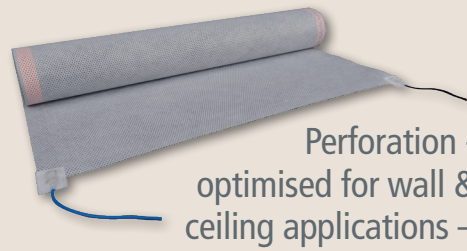

Heating for all rooms in the family home

Improved comfort in bathroom renovations

Moisture protection at the studio

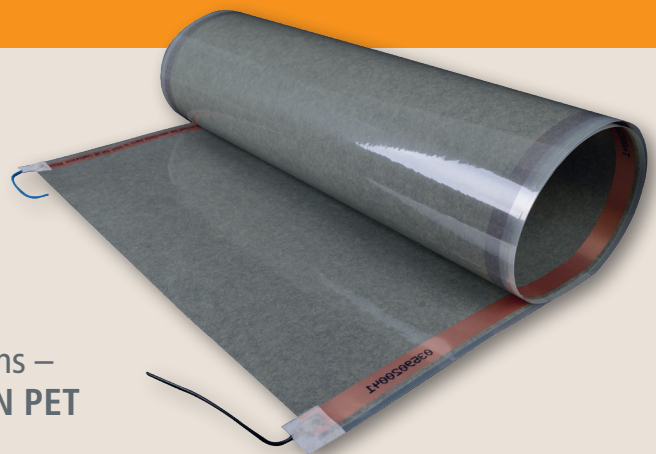

Perforation -  
optimised for wall &  
ceiling applications –  
**E-ENERGY CARBON FLEECE**

**ULTRA-THIN.  
ONE OF A KIND.  
PATENTED.**
