

Wall heating

System E-ENERGY CARBON FLEECE

Renovation of a living room in 2500 Baden

Due to a damp wall, a living room in an existing apartment was renovated. To avoid future moisture damage, a total of three heating foils of 5.5 m length each were installed in the wall of the 40 m² room. The E-ENERGY CARBON FLEECE system was used.

Wall covering	Fine putty
Surface heating	E-ENERGY CARBON FLEECE
Surface	30 m ²
Area	Ground floor
